

Activity	Description
Animation	Pupils will learn how to create a stop motion animation using drawing, plasticine and Photoshop. No previous knowledge necessary.
Ceramics	Pupils will learn how to create ceramic pots using traditional methods, including coiling, slurry (a thin mix of clay and water) and glazing. Pupils will design and make their ceramic pots relating to the theme 'Organic Structures' and use our kiln to fire their work.
Badminton	In Badminton, pupils will be learning essential techniques, shots, tactics and strategy needed for success in one the fastest racket sports on Earth!
Book Club	Pupils will join our lively book club. The club, led by the Librarian, aims to increase the pleasure of reading through various activities based on the books being read by club members. This allows pupils to share their ideas, explore differences of opinion and find common interests. Book Club books are funded by Deloitte.
Cookery	Pupils will learn how to make a delicious range of both savoury and sweet dishes. All ingredients provided by the Academy.
Chess	<p>Chess improves memory, develops logical thinking, promotes imagination and creativity and teaches independence. But most important of all, kids have fun! Our chess club teaches the game of kings in a unique, fun and engaging way. Kids will learn everything from basic piece movement to advanced tactics</p> <p>Suitable for all pupils of all skill levels.</p>
Conversational French	In French pupils will begin to learn the basic language to be able to greet people, give information about ourselves, describe the weather and give their opinions on different topics.
Conversational Spanish	In Spanish pupils will begin to learn the basic language to be able to greet people, give information about ourselves, describe the weather and give their opinions on different topics.
Dance	An exciting opportunity to learn a range of dance styles including hip hop, jazz, contemporary and ballet. Come and learn a brand new style and have the chance to choreograph your own dance pieces. A fun and healthy way to keep fit, meet new friends and develop your creativity, co-ordination and dance knowledge. All abilities welcome-no dance experience necessary just enthusiasm and energy!
Drama and Performing Arts	We have teamed up with The Creative Speech Company to deliver a fun filled enrichment, full of script work, acting for stage, devising techniques, directing, performance showcases and the opportunity to take a LAMDA exam. If you are interested in Drama, performance, theatre and performing arts this is the enrichment for you
Intermediate Orchestra	Intermediate Orchestra is for students that are beginner to grade 3 standard and play an orchestral instrument. There will be three SMMA concerts per year as well as all concerts in conjunction with MiSST and MiSST schools. Students that attend orchestra will have first refusal when selecting students for the prestigious Radley Residential in July. Conductor: Miss Kent
Kung Fu (Wing Chun)	Pupils will learn the martial art of Wing Chun. By the end of term they will have mastered basic techniques and be able to refine these as the course develops. All are welcome, experienced or new to martial arts.
Science/ STEM	In STEM enrichment pupils will be using their scientific curiosity by designing and making science experiments, They will be using their scientific skills and showing adaptability and tenacity to understand the science behind everyday objects.
Sudoku and Maths	Challenge your brain and join this club to try lots of new and interesting Maths puzzles. Individual and team challenges with prizes to be won!

SMMA Meteorologists	This enrichment will allow students to explore different types of weather in the UK and around the world. They will get to make their own weather instruments, create and record weather reports, and complete fieldwork investigations to find microclimates in and around the Academy. This enrichment is perfect for those who enjoy Geography or Science, and even those who just want to learn more about the weather that affects their everyday lives!
Table Tennis	Table tennis players can put extreme spin on the ball to make it difficult to predict or return, or can try to manoeuvre their opponent around the table — hoping to open up a point winning opportunity. Playing table tennis can have a number of positive health and fitness benefits.
