

	<p>Sharing the planet</p> <p>Inquiry into the rights and responsibilities in the struggle to share finite resources with other people and other living things; communities and the relationship within and between them; access to equal opportunities; peace and conflict resolution.</p> 	<p>How the world works</p> <p>Inquiry into the natural world and its laws, the interaction between the natural world (physical and biological) and human societies; how humans use their understanding of scientific principles; the impact of scientific and technological advances on society and the environment.</p> 	<p>Who we are</p> <p>Inquiry into the nature of the self; beliefs and values; person, physical, mental, social and spiritual health; human relationships including families, friends, communities and cultures; rights and responsibilities; what it means to be human.</p> 	<p>Where we are in time & place</p> <p>Inquiry into orientation in place and time; personal histories; homes and journeys; the discoveries explorations and migrations of humankind; the relationship between and interconnectedness of individuals and civilisations from local and global perspective.</p> 	<p>How we express ourselves</p> <p>Inquiry into the ways in which we discover and express ideas, feelings, nature, culture, beliefs and values; the way in which we reflect on, extend and enjoy our creativity; our appreciation of the aesthetic.</p> 	<p>How we organise ourselves</p> <p>Inquiry into the interconnectedness of human-made systems and communities; the structure and function of organisations; societal decision-making; economic activities and their impact on humankind and the environment.</p> 
Reception	We need to share what we have with others		As individuals we bring our personalities, preferences and experiences to school		We express our feelings, thoughts and ideas through play	Our journeys can take us many different places and keep us connected to people
Year 1	We need to appreciate and care for the living world around us	All living things go through a process of change	Making balanced choices about daily routines helps us to have healthy lifestyles	Peoples' homes change through time	We can express our feelings through creative media	People build homes in different places and different ways People in communities use a variety of skills and abilities to work together
Year 2	Reducing, reusing and recycling waste can help our planet	Understanding the physical laws of forces and motion help us to use them in different ways.	Peaceful relationships are created through mutual understanding and respect.	Our personal histories help us understand who we are and where we have come from.	People express themselves and celebrate in different ways	Electricity impacts the world of work and leisure
Year 3	The world's resources are not always distributed or shared fairly or equitably.	Light is a form of energy that is part of our everyday lives.	Our body systems carry out functions necessary for life.	People move around the globe and settle in different places	Nature helps people express themselves throughout their lives.	Societies have a clear hierarchy and social structure.
Year 4	The rainforests are fundamental to the survival of our planet	Matter is everything and it comes in different forms	The discoveries of others benefit our society.	Life today is a result of what happened in the past.	Humans express themselves through art and music.	Various physical and human influences affect the characteristics and the way in which cities develop around the world.
Year 5	Water is a limited resource that is shared unequally throughout our planet	Over time, living things need to adapt in order to survive.	Societies change to allow children to have the right and responsibility to a healthy balanced life.	The evolution of ancient civilisations play an important part in shaping modern society	Man-made structures play an important part in human expression throughout history	Individuals and groups are affected by the economic decisions of others.
Year 6	Finding peaceful solutions to conflict leads to a better quality of human life.	People's lives are affected by a range of physical forces.	Religions have many similarities and have an influence on the way people live their lives.	THE EXHIBITION	Media is a powerful tool which impacts on our perception of the world around us.	Societies govern in many ways to create a decision-making structure.
